

## CANADA SUMMER GAMES

Since 1969, the Canada Summer Games have been staged every four years in a different host city in Canada. These Games bring together the youth of Canada to participate in a variety of athletic competitions while representing their home province. Rowing has been part of the programme since the first Summer Games and have been left out only twice (1977 and 1981). The Manitoba Rowing Association has and continues to send crews to all Summer Games as part of Team Manitoba. The next Canada Summer Games for Team 'Toba's rowing crews will be the 2005 Games in Regina, Saskatchewan.
